TUCKED AMID THE
WORLD'S SECOND

Our 52-acre outpost is surrounded by the Tongass National Forest on Prince of Wales Island's craggy west coast—aka the “salmon super highway.” Here, nutrient-rich spring runoff and a confluence of ocean currents create ideal habitat for bait fish, which draw the epic runs of king and silver salmon, halibut, lingcod, and more than 20 other sport fish.

HISTORY

A CENTURY OF TRADITION

**FROM RECORD-BREAKING
ALASKA SALMON
CANNERY TO WORLD-
CLASS FISHING LODGE.**

The story of Waterfall Resort began in 1912, when commercial fishermen founded Waterfall Cannery near a natural waterfall on Prince of Wales Island. The cannery set a record in seafood production, thriving for over half a century until new ownership transformed it into a full-service lodge. To this day, the fishing here is still phenomenal.
